22 **15-17 Merchants Row** is an early 19th century building of straightforward lines. The four-story brick structure has been rehabilitated to make the most of its simplicity, and serves as a good example for similar buildings in the nearby Blackstone Block, as well as in other neighborhoods.

BOST. ADDRESS 151-153 MILK ST.

~~12~~ **151-153 Milk Street/19 Broad Street** Although the date and architect of 151-153 Milk Street/19 Broad Street are unknown, this building was probably erected shortly after the Great Fire of 1872. The patterns created by the paneled brick and incised stone of the facades exhibit the emphasis on light and shadow characterizing Victorian architecture. Through this, the building achieves an outstanding strength and interest.
